Confirmation No.: 7468

Title: METHOD OF CLEANING SEMICONDUCTOR SURFACES

TERMINAL DISCLAIMER

MS Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

I, David C. Peterson, am the attorney of record for the above identified patent application as evidenced by the Power of Attorney filed in the present application on October 8, 2003. I am making this petition on behalf of Micron Technology, Inc., the assignee of the present invention. As the attorney of record, I am empowered to act on behalf of the assignee and, in accordance with 37 C.F.R. § 1.321(b)(iv), to sign this terminal disclaimer.

Certificate Under 37 C.F.R. § 3.73(b)

Your petitioner, Micron Technology, Inc., certifies that they are the owner of the entire right, title and interest in and to the above-identified patent application (U.S. Application Serial No. 10/681,481) and to U.S. Patent No. 7,303,637. Your petitioner owns the entire right, title, and interest of these applications by nature of the assignment executed and filed for both of these applications. The assignment for the above-identified patent application (U.S. Application Serial No. 10/681,481) and for U.S. Patent No. 7,303,637 was recorded on October 8, 2003 on Reel 014600, Frames 0851-0853, with the United States Patent and Trademark Office. U.S. Patent No. 7,303,637 is a continuation of the above identified patent application (U.S. Application Serial No. 10/681,481).

The undersigned representative of the assignee has reviewed the evidentiary documents of title and certifies that to the best of assignee's knowledge and belief, title is in the assignee, Micron Technology, Inc., seeking to take the action set forth in this disclaimer.

Terminal Disclaimer

Your petitioner hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified patent application, which would extend beyond the expiration date of the full statutory term, as presently shortened by any terminal disclaimers, of U.S. Patent No. 7,303,637. Petitioner hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to U.S. Patent No. 7,303,637 and the legal title of the above-identified application and any patent granted thereon remain common, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors and assigns.

Limitations on the Disclaimer

Your petitioner does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term as presently shortened by any terminal disclaimer of U.S. Patent No. 7,303,637 in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to the expiration date of its statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title as stated hereinabove.
